MINERS MEET DEATH

FOURTEEN MEN KILLED IN COLLIERY EXPLOSION AT MORRISSEY, B. C.

ONLY ONE MAN ESCAPES

ACCIDENT BELIEVED TO HAVE BEEN CAUSED BY IGNITION OF COAL GAS.

Winnipeg, Man., Nov. 19.—Fourteen miners were killed at Morrissey, ten miles west of Fernie, B. C., during the afternoon by a premature explosion of coal gas in the Carbonide mine. Only one escaped, D. Darcy, a driver. All the bodies were recovered. The mining officials are all at the mine. Darcy felt a rush of coal gas and was forced to the entrance. An explosion occurred in the same colliery a year ago.

STRICKEN IN BANQUET HALL.

Secretary of the Navy Morton Taken Suddenly Ill.

New York, Nov. 19.—Secretary Paul Morton of the navy was taken ill during the evening at the dinner of the Society of Naval Architects and Marine Engineers at Delmonico's. He had been assigned to respond to the toast, "The President of the United States," and he represented President Roosevelt at the banquet. The secretary had spoken but a few moments when he excused himself and left the banquet hall.

Former Rear Admiral Bowles, who presided, told the guests that Secretary Morton was ill and wished him to offer his excuses for leaving them so soon. The admiral said that the secretary was not seriously sick, but did not feel well enough to remain longer.

It was said later that Mr. Morton had left for Washington.

Before illness compelled him to desert Mr. Morton, in responding to the toast, "The President of the United States," said that he was in favor of a navy of such efficiency that no other nation would undertake to seek an engagement with us.

"I believe that it should be second to none in the world," he continued. "You can be assured that you have in the White House now a man who believes in having the best and strongest navy in the world."

FREIGHT STEAMER BURNS.

Large Vessel and Cargo a Complete Loss.

New York, Nov. 19.—Twenty-one persons were rescued from the big freight steamer Mohawk, of the Central Vermont railroad's fleet, which burned to the water's edge off Horton's Point in Long Island sound, early in the day. The watchman, a Swede named Larson, is believed to have been burned to death. All the others on board, among whom were two women, were taken off the burning vessel by the freight boat Boston, of the Fall River line, shortly after 1 o'clock a. m., and almost immediately afterward there was a heavy explosion on the abandoned freighter, which apparently completed the destruction made by the flames.

The charred hull of the Mohawk now lies on the inlet bar west of Peconic and the vessel and cargo are a total loss.

The Mohawk was loaded with general merchandise, which included nearly a thousand barrels of sugar and considerable oil.

SCHOOL TEACHERS RESIGN.

Great Disaffection Exists Among Minneapolis Instructors.

Minneapolis, Nov. 19.—Minneapolis faces a famine of school teachers and Superintendent of Schools Jordan is hard put to it by the condition that confronts the administration of school affairs in the Flour City.

Ninety-five teachers have handed in their resignation to take effect at the Christmas holidays, according to reports, and numerous further resignations are anticipated.

Superintendent Jordan is said to be much worried over the outlook and is reported to have issued instructions to the principals of the schools to make it as easy as possible on the teachers so that the disaffection will not spread further.

The teachers are reported to protest that the work is too hard and that it is constantly growing harder.

BITTER LESSON FOR RUSSIA.

Now Realizes the Vital Importance of Sea Power.

St. Petersburg, Nov. 19.—America is likely to profit both directly and indirectly from the execution of the large naval programme which Russia is now elaborating.

The vital importance of the sea power has been Russia's bitterest lesson of the war and the government is fully determined that the maintenance of the empire's position in future as a first class power will be impossible without an adequate navy. If the losses the Pacific fleet has already sustained should be followed by disaster to Vice Admiral Rejestravsky's squadron it will be necessary not only to rebuild the whole navy but to increase its strength. The immensity of the task seems to be fully appreciated. While some of the contracts will be placed abroad, owing to the limited facilities of Russian yards (and it is expected that at least one big battleship will be constructed in America), the admiralty's plans will be directed towards ultimate divorce from dependency upon foreign shipbuilders by the organization at home of vast shipbuilding, armor plate, and

nance and kindred industries. For this purpose it is realized, however, that foreign builders and specialists must be attracted and some alluring prospects are likely to present themselves.

OMINOUS PREPARATIONS.

Russian Red Cross Getting Ready to Care for Wounded.

Mukden, Nov. 19.—On the morning of Nov. 17, after a long silence, the distant roar of cannon was heard, but where the fighting occurred is not yet known. There is no assurance yet that it means that a general fight is beginning. No excitement is yet displayed among Russian officers or Chinese here.

The Red Cross is making extensive preparations for the transportation of wounded from fields of battle. Two kinds of horse litters are being experimented with, one for the seriously wounded and the other for the slightly wounded. In the event of the trial being successful, which seems likely, all field hospitals will be equipped with these litters, reducing the number of bearers, which under the old system has necessarily subtracted from the fighting line, by almost half.

EXCHANGING PROPOSALS.

Great Britain and Russia Still Discussing Plan of Inquiry.

London, Nov. 19.—Great Britain has not yet accepted the modification of the North sea convention proposed by Russia. The draft of the convention, which has now had quite an interesting career, is in London and proposals and counter proposals on the subject of the wording continue to be exchanged between the British foreign office and the Russian embassy. A satisfactory conclusion of these exchanges is anticipated very shortly, though it probably will be next week before the convention is actually signed. One of the chief difficulties is to find an equivalent in French for the English word "blame" that is regarded as satisfactory to both parties.

WILL DETACH FIFTH OFFICER.

Russia Decides to Have Him Testify in North Sea Case.

St. Petersburg, Nov. 19.—The statement in these dispatches Thursday that a supplementary article in the Anglo-Russian North sea convention will cover any similar misunderstanding

ings in the future was incorrect. The second French text prepared by Russia, which is a compromise between the original English and the French text proposed by Russia, is now being considered by the British government. It is probable that Russia will send a fifth officer, detached from the transport Kamchatka to Paris. He will testify to seeing torpedo boats thirty miles behind the battleship division and to wireless messages which were exchanged with the flagship.

RUSSIAN ARSENAL BLOWN UP.

Jap Fire Destroys Magazine at Port Arthur.

Tokio, Nov. 19.—A telegram from Moji reports the destruction of another Russian arsenal and magazine at Port Arthur. The Japanese discovered, it is said, the location of the arsenal and centered their artillery fire upon it. After dropping 200 shells in the locality they succeeded in blowing it up.

The Japanese are widening their gaps and are using them to move their guns forward. The Russians continue their spirited sorties, using hand grenades in their attacks upon the Japs.

SUPPLIES AT ANY COST.

Russia Will Try to Get Provisions to Port Arthur.

London, Nov. 19.—The Daily Mail's St. Petersburg correspondent says that Lieutenant General Stoessel's report expresses a firm conviction that he will be able to hold out at Port Arthur until the Baltic squadron arrives in March, on the condition that he is supplied with munitions and stores. The government, the correspondent adds, has instructed its agents abroad to supply Lieutenant General Stoessel's requirements at any cost.

GENERAL STOESSEL REPORTS.

Asserts Port Arthur Can Hold Out Several Months Longer.

St. Petersburg, Nov. 19.—General Stoessel has telegraphed to Emperor Nicholas that Port Arthur can hold out several months.

May Cut the Railway.

Harbin, Nov. 19.—The report is circulated here that 8,000 Chinese bandits under Japanese officers are moving toward the railway communications below the pass.

STRICKEN IN BANQUET HALL.

Secretary of the Navy Morton Taken Suddenly Ill.

New York, Nov. 19.—Secretary Paul Morton of the navy was taken ill during the evening at the dinner of the Society of Naval Architects and Marine Engineers at Delmonico's. He had been assigned to respond to the toast, "The President of the United States," and he represented President Roosevelt at the banquet. The secretary had spoken but a few moments when he excused himself and left the banquet hall.

Former Rear Admiral Bowles, who presided, told the guests that Secretary Morton was ill and wished him to offer his excuses for leaving them so soon. The admiral said that the secretary was not seriously sick, but did not feel well enough to remain longer.

It was said later that Mr. Morton had left for Washington.

Before illness compelled him to desert Mr. Morton, in responding to the toast, "The President of the United States," said that he was in favor of a navy of such efficiency that no other nation would undertake to seek an engagement with us.

"I believe that it should be second to none in the world," he continued. "You can be assured that you have in the White House now a man who believes in having the best and strongest navy in the world."

FREIGHT STEAMER BURNS.

Large Vessel and Cargo a Complete Loss.

New York, Nov. 19.—Twenty-one persons were rescued from the big freight steamer Mohawk, of the Central Vermont railroad's fleet, which burned to the water's edge off Horton's Point in Long Island sound, early in the day. The watchman, a Swede named Larsen, is believed to have been burned to death. All the others on board, among whom were two women, were taken off the burning vessel by the freight boat Boston, of the Fall River line, shortly after 1 o'clock a. m., and almost immediately afterward there was a heavy explosion on the abandoned freighter, which apparently completed the destruction made by the flames.

The charred hull of the Mohawk now lies on the inlet bar west of Peconic and the vessel and cargo are a total loss.

The Mohawk was loaded with general merchandise, which included nearly a thousand barrels of sugar and considerable oil.

SCHOOL TEACHERS RESIGN.

Great Disaffection Exists Among Minneapolis Instructors.

Minneapolis, Nov. 19.—Minneapolis faces a famine of school teachers and Superintendent of Schools Jordan is hard put to it by the condition that confronts the administration of school affairs in the Flour City.

Ninety-five teachers have handed in their resignation to take effect at the Christmas holidays, according to reports, and numerous further resignations are anticipated.

Superintendent Jordan is said to be much worried over the outlook and is reported to have issued instructions to the principals of the schools to make it as easy as possible on the teachers so that the disaffection will not spread further.

The teachers are reported to protest that the work is too hard and that it is constantly growing harder.

HEAVY SEA SWAMPS CANOE.

Three Men Drowned in a Lake Near Eagle River, Wis.

Eagle River, Wis., Nov. 19.—Horace Bent, a summer hotel keeper; Frederick Anderson, and an unknown Eastern tourist, a guest of Bent's, were drowned in an attempt to cross Tenderfoot lake in a canoe through a heavy sea.

Bent was a splendid swimmer and could easily have saved himself, but it is thought he lost his life in an effort to help his guests. The bodies have not been recovered.

Little Girls Drown in Well.

Winnipeg, Man., Nov. 19.—Two girls, aged four and six years, daughters of Michael Uwiscka, a prosperous farmer of Riding Mountains, a Galician settlement, were drowned in a well during the day.

BITTER LESSON FOR RUSSIA.

Now Realizes the Vital Importance of Sea Power.

St. Petersburg, Nov. 19.—America is likely to profit both directly and indirectly from the execution of the large naval programme which Russia is now elaborating.

The vital importance of the sea power of the war and the government is fully determined that the maintenance of the empire's position in future as a first class power will be impossible without an adequate navy. If the losses the Pacific fleet has already sustained should be followed by disaster to Vice Admiral Rejstvensky's squadron it will be necessary not only to rebuild the whole navy but to increase its strength. The immensity of the task seems to be fully appreciated. While some of the contracts will be placed abroad, owing to the limited facilities of Russian yards (and it is expected that at least one big battleship will be constructed in America) the admiralty's plans will be directed towards ultimate divorce from dependency upon foreign shipbuilders by the organization at home of vast shipbuilding, armor plate, and

nance and kindred industries. For this purpose it is realized, however, that foreign builders and specialists must be attracted and some alluring prospects are likely to present themselves.

OMINOUS PREPARATIONS.

Russian Red Cross Getting Ready to Care for Wounded.

Mukden, Nov. 19.—On the morning of Nov. 17, after a long silence, the distant roar of cannon was heard, but where the fighting occurred is not yet known. There is no assurance yet that it means that a general fight is beginning. No excitement is yet displayed among Russian officers or Chinese here.

The Red Cross is making extensive preparations for the transportation of wounded from fields of battle. Two kinds of horse litters are being experimented with, one for the seriously wounded and the other for the slightly wounded. In the event of the trial being successful, which seems likely, all field hospitals will be equipped with these litters, reducing the number of bearers, which under the old system has necessarily subtracted from the fighting line, by almost half.

EXCHANGING PROPOSALS.

Great Britain and Russia Still Discussing Plan of Inquiry.

London, Nov. 19.—Great Britain has not yet accepted the modification of the North sea convention proposed by Russia. The draft of the convention, which has now had quite an interesting career, is in London and proposals and counter proposals on the subject of the wording continue to be exchanged between the British foreign office and the Russian embassy. A satisfactory conclusion of these exchanges is anticipated very shortly, though it probably will be next week before the convention is actually signed. One of the chief difficulties is to find an equivalent in French for the English word "blame" that is regarded as satisfactory to both parties.

WILL DETACH FIFTH OFFICER.

Russia Decides to Have Him Testify in North Sea Case.

St. Petersburg, Nov. 19.—The statement in these dispatches Thursday that a supplementary article in the Anglo-Russian North sea convention will cover any similar misunderstand-

ings in the future was incorrect. The second French text prepared by Russia, which is a compromise between the original English and the French text proposed by Russia, is now being considered by the British government. It is probable that Russia will send a fifth officer, detached from the transport Kamchatka to Paris. He will testify to seeing torpedo boats thirty miles behind the battleship division and to wireless messages which were exchanged with the flagship.

RUSSIAN ARSENAL BLOWN UP.

Jap Fire Destroys Magazine at Port Arthur.

Tokio, Nov. 19.—A telegram from Moji reports the destruction of another Russian arsenal and magazine at Port Arthur. The Japanese discovered, it is said, the location of the arsenal and centered their artillery fire upon it. After dropping 200 shells in the locality they succeeded in blowing it up.

The Japanese are widening their gaps and are using them to move their guns forward. The Russians continue their spirited sorties, using hand grenades in their attacks upon the Japs.

SUPPLIES AT ANY COST.

Russia Will Try to Get Provisions to Port Arthur.

London, Nov. 19.—The Daily Mail's St. Petersburg correspondent says that Lieutenant General Stoessel's report expresses a firm conviction that he will be able to hold out at Port Arthur until the Baltic squadron arrives in March, on the condition that he is supplied with munitions and stores. The government, the correspondent adds, has instructed its agents abroad to supply Lieutenant General Stoessel's requirements at any cost.

GENERAL STOESSEL REPORTS.

Asserts Port Arthur Can Hold Out Several Months Longer.

St. Petersburg, Nov. 19.—General Stoessel has telegraphed to Emperor Nicholas that Port Arthur can hold out several months.

May Cut the Railway.

Harbin, Nov. 19.—The report is circulated here that 8,000 Chinese bandits under Japanese officers are moving toward the railway communications below Tie pass.

STOVE

SALE

This will be the First Genuine Great Stove Sale ever held in Brainerd; the particular difference between this sale and the many other sales going on at the present time, is that we do not oblige you to pay spot cash to get the benefit of it.

We have fifty-one different kinds of Heaters and six varieties of Ranges and we have to keep about five hundred stoves on hand to back up these samples, and our store is so

crowded with goods that we haven't room even to show such a large variety of samples.

What we want to do this fall is to close out this entire stock so as to start in next season with a smaller variety and consequently smaller stock. We would rather sell all of these stoves on the installment plan than to sell only part of them for cash and carry the balance over another year, and we would rather you would have the use and comfort of a

good Heater or Range and pay for it at your convenience than to keep them in our warehouse where they are doing no one any good.

It is rather an unusual proceeding to offer goods on the installment plan at a closing out sale, therefore we have explained our reasons as above, to convince you that we mean business.

Come in and see what Bargains we have to offer is all we ask.

STOVE

SALE

This will be the First Genuine Great Stove Sale ever held in Brainerd; the particular difference between this sale and the many other sales going on at the present time, is that we do not oblige you to pay spot cash to get the benefit of it.

We have fifty-one different kinds of Heaters and six varieties of Ranges and we have to keep about five hundred stoves on hand to back up these samples, and our store is so

crowded with goods that we haven't room even to show such a large variety of samples.

What we want to do this fall is to close out this entire stock so as to start in next season with a smaller variety and consequently smaller stock. We would rather sell all of these stoves on the installment plan than to sell only part of them for cash and carry the balance over another year, and we would rather you would have the use and comfort of a

good Heater or Range and pay for it at your convenience than to keep them in our warehouse where they are doing no one any good.

It is rather an unusual proceeding to offer goods on the installment plan at a closing out sale, therefore we have explained our reasons as above, to convince you that we mean business.

Come in and see what Bargains we have to offer is all we ask.

38 YEARS BUSINESS.

WILL CLOSE OUT OUR STORE

\$40,000 WORTH OF GOODS TO SELL. STORE TO RENT.

As the fall season began we bought liberally of all kinds of goods in our line, now all will be closed out without regards to cost. This sale will be pushed until the goods are closed out and no let up. Call early and often and see what we are doing. We will make this a genuine Closing-out Sale and no farce.

Great bargains in all kinds of goods, nothing will be reserved, all must go from Front door to Seventh street doors. Sell goods is the word all over. Bargains in every thing that you can mention. I cannot name every article, the store is too big. Bargains in shoes and rubbers for all people. Clothing for Men, and Boys; Ladies', Misses', Children's and Men's underwear at a great sacrifice.

Ladies' and Gents' furnishing goods in great variety, all must go. Ladies' coats, Children's coats and Ladies' skirts 33 to 60 per cent off, think of it; nothing reserved, all must go. First come first served.

Great saving in the grocery department; come get prices and you will buy goods to the close.

Remember this is a genuine Closing-out Sale, store to rent. I will retire from the mercantile business and engage in other business in Brainerd. Thanking my customers and friends for past favors. Yours for a finish.

CANVASS SHOWS SLIGHT INCREASE

J. H. Ley Has Completed Work of Compiling a New Brainerd City Directory

MANY HOUSES HAVE BEEN BUILT

Five Hundred Families Have Moved in, but Large Number Also Moved Away.

J. H. Ley, who has been at work canvassing the city and compiling the names for a new city directory, has completed the work and the copy is now all in for a new book for this city.

Mr. Ley got out a directory two years ago and it has been a valuable source of information to the people of the city. He has made a thorough canvass in getting the names for his new book and as a consequence is able to give some rather interesting information regarding the city.

He states that as far down as he has counted the names, which is to "W," there is a slight increase in population.

One of the interesting facts brought out in the canvass was that during the past two years 500 families have moved into this city, while 450 families have moved away, which gives one an idea that there is quite a floating population. From information that Mr. Ley has been able to glean 100 new homes have been built in the city during the two years. He thinks there are about 75 houses in the city now empty.

The directory will be out in a short time and ready for distribution.

BEEN IN BUSINESS A MONTH

H. F. Michael & Co. Feel Very Grateful for the Patronage Extended Thus Far in Brainerd

The firm of H. F. Michael & Co. has been in business in Brainerd just a month and they feel that they have a great deal to be thankful for, as business has been better than they had expected. Mr. Michael stated today that he is more than pleased with the manner in which the people of the city are responding as it shows that they are looking for a store which carries just the stock that they do.

Many families in Brainerd will read THE DISPATCH this evening who are not regular subscribers and it might be interesting to them to know that it is through the generosity of Mr. Michael that they are doing so.

WILL MEET ON TUESDAY NIGHT

The City Council Will Convene on Tuesday Night Instead of a Week from Monday Night.

The new council will meet for the first time on Tuesday night of next week instead of a week from Monday as was announced yesterday.

A BEAUTIFUL PRESENT

Large Grass Mat Presented to Brainerd Lodge of Elks by B. B. Teasdale, of the American Grass Twine Co.

The Brainerd Lodge of Elks is in receipt of a very beautiful present in the shape of a large grass mat made by the American Grass Twine Co., and presumably sent here by B. B. Teasdale, superintendent of the company's plant at Backus. Mr. Teasdale is a member of the local order.

The mat is done in different colors and the insignia of the order is woven in the center. The letters "B. P. O. E." are engraved in each corner of the mat. It is a beautiful thing and will be highly prized by the order.

MUSIC AND DRAMA.

"JOSHUA SIMPKINS."

"Joshua Simpkins," a four act New England play, will be presented at the Brainerd opera house Thanksgiving, matinee and evening. The climax of stage realism, it is asserted, has been reached in the presentation of the stirring saw mill scene in "Joshua Simpkins," and it will be presented in this city by a peculiar mechanical contrivance. This saw mill scene is claimed to be a vast improvement over many attempts in a similar line. The company boasts of an orchestra which is carried complete by the organization to aid in the proper presentation of the play, which is said to abound in musical and dancing specialties. To assist "Joshua Simpkins" in popularity, a band of music is also carried and a concert is given. The parade will leave the theatre at the usual time and take the usual route, making a burlesque parade. Prices, matinee 50c and 25c; night 75c, 50c and 25c.

MR. WALKER WHITESIDE.

It was a happy thought and the Elks of Brainerd made a tenstrike when they bought out the performance to be given in this city Friday evening, Nov. 25, by Mr. Walker Whiteside, as tickets are selling fast.

Mr. Whiteside has won for himself a large following of Brainerd's most thoughtful theatre-goers and the advance sale for the engagement has opened with a rush. Mr. Whiteside has a new play this season entitled "David Garrick's Love." The story concerns the love of David Garrick, the most famous actor of his day in England, for a young woman he saw in a box during a performance he gave of "Hamlet" at Drury Lane theatre. Serious complications arise which place Garrick in an embarrassing position in her eyes, and which for a time threaten their union in marriage. The play is a new version of a German dramatization of an episode in Garrick's life. It was secured by Mr. Whiteside while he was in London during the past summer. For many years the elder Sothorn produced a play in this country and abroad, called "David Garrick." The title role became one of his most famous characterizations. Of recent years Charles Wyndham has regularly revived the same play in London.

Mr. Whiteside's version is a new and more modern treatment of the story as told in the German, and deals at greater length with the entire theme. The role of David Garrick affords him fine opportunity for the display of splendid art both in tragic and comedy work. A notable company has been provided for the many quaint characters in the play.

MAUD ULMER JONES.

No recital ever given in Helena within a year was more thoroughly enjoyed than the one offered last evening at the First Unitarian church by Mrs. Maud Ulmer Jones and Miss Gertrude Sans Souci. Mrs. Jones has a soprano voice of rare sweetness and power. So great was the volume of her voice that her opening number, "Hear Ye, Israel" from Mendelssohn's Orations "Elijah," more than filled the auditorium. Every song was well received, for in Mrs. Jones her audience instantly recognized an artist. From the two bright little ballads by Miss Sans Souci to the last number of the program Mrs. Jones was enthusiastically encored. In fact, the audience was reluctant to leave after she had responded to an encore of the last number.—Helena, Montana, Daily Record.

Mrs. Jones will be heard in concert at the First Congregational church Tuesday evening, Nov. 22.

Chattanooga, Tenn., Nov. 19.—During the day the first announcement was made of a formal movement to hold in this city in 1915 a world's fair to be known as the Semi-Centennial Peace Jubilee exposition commemorating the end of the war between the states. It is learned that assurances of aid from the government and various organizations has been secured.

CONTROVERSY OVER PINE LANDS

Lands Were Not Included in Either First or Second Selections of the Forestry Bureau

OBJECTIONS TO DESIGNATIONS

Held Out that Development of the Country North of Here Will Be Greatly Retarded.

An interesting controversy has arisen regarding large tracts of Minnesota pine lands which have been set aside by the engineer's department in charge of dams and reservoirs at the headwaters of the Mississippi. These lands were held out and not included in either the first or second selections of the bureau of forestry for a national reserve, for the reason that at certain seasons of the year there are overflows from the high water. The war department was given jurisdiction over several thousand acres around lakes and bodies of water connected by the reservoirs.

Strong objection to this designation have been made by G. G. Hartley, of Duluth, and other Northern Minnesota citizens. They claim that valuable lands are going to waste, if this policy is continued. It is set forth in a report that has been submitted to Senator Nelson that water can be so regulated that there would be no overflows. It is also set forth that the development and improvement of the country will be retarded, if these lands are held out from being opened to settlement, hence efforts will be made to change the boundary lines of the forest reserve so that the major part of the overflow withdrawal may be included in the forest reserve and an equal amount of land in the forest reserve proper be restored to the public domain subject to homestead entry.

As soon as congress opens it is understood that representatives of the several counties affected will go to Washington and lay the matter before the proper officials.

BEEN IN BUSINESS A MONTH

H. F. Michael & Co. Feel Very Grateful for the Patronage Extended Thus Far in Brainerd

The firm of H. F. Michael & Co. has been in business in Brainerd just a month and they feel that they have a great deal to be thankful for, as business has been better than they had expected. Mr. Michael stated today that he is more than pleased with the manner in which the people of the city are responding as it shows that they are looking for a store which carries just the stock that they do.

Many families in Brainerd will read THE DISPATCH this evening who are not regular subscribers and it might be interesting to them to know that it is through the generosity of Mr. Michael that they are doing so.

WILL MEET ON TUESDAY NIGHT

The City Council Will Convene on Tuesday Night Instead of a Week from Monday Night.

The new council will meet for the first time on Tuesday night of next week instead of a week from Monday as was announced yesterday.

A BEAUTIFUL PRESENT

Large Grass Mat Presented to Brainerd Lodge of Elks by B. B. Teasdale, of the American Grass Twine Co.

The Brainerd Lodge of Elks is in receipt of a very beautiful present in the shape of a large grass mat made by the American Grass Twine Co., and presumably sent here by B. B. Teasdale, superintendent of the company's plant at Backus. Mr. Teasdale is a member of the local order.

The mat is done in different colors and the insignia of the order is woven in the center. The letters "B. P. O. E." are engraved in each corner of the mat. It is a beautiful thing and will be highly prized by the order.

MUSIC AND DRAMA.

"JOSHUA SIMPKINS."

"Joshua Simpkins," a four act New England play, will be presented at the Brainerd opera house Thanksgiving, matinee and evening. The climax of stage realism, it is asserted, has been reached in the presentation of the stirring saw mill scene in "Joshua Simpkins," and it will be presented in this city by a peculiar mechanical contrivance. This saw mill scene is claimed to be a vast improvement over many attempts in a similar line. The company boasts of an orchestra which is carried complete by the organization to aid in the proper presentation of the play, which is said to abound in musical and dancing specialties. To assist "Joshua Simpkins" in popularity, a band of music is also carried and a concert is given. The parade will leave the theatre at the usual time and take the usual route, making a burlesque parade. Prices, matinee 50c and 25c; night 75c, 50c and 25c.

MR. WALKER WHITESIDE.

It was a happy thought and the Elks of Brainerd made a tenstrike when they bought out the performance to be given in this city Friday evening, Nov. 25, by Mr. Walker Whiteside, as tickets are selling fast.

Mr. Walker Whiteside has won for himself a large following of Brainerd's most thoughtful theatre-goers and the advance sale for the engagement has opened with a rush. Mr. Whiteside has a new play this season entitled "David Garrick's Love." The story concerns the love of David Garrick, the most famous actor of his day in England, for a young woman he saw in a box during a performance he gave of "Hamlet" at Drury Lane theatre. Serious complications arise which place Garrick in an embarrassing position in her eyes, and which for a time threaten their union in marriage. The play is a new version of a German dramatization of an episode in Garrick's life. It was secured by Mr. Whiteside while he was in London during the past summer. For many years the elder Sothorn produced a play in this country and abroad, called "David Garrick." The title role became one of his most famous characterizations. Of recent years Charles Wyndham has regularly revived the same play in London.

Mr. Whiteside's version is a new and more modern treatment of the story as told in the German, and deals at greater length with the entire theme. The role of David Garrick affords him fine opportunity for the display of splendid art both in tragic and comedy work. A notable company has been provided for the many quaint characters in the play.

MAUD ULMER JONES.

No recital ever given in Helena with in a year was more thoroughly enjoyed than the one offered last evening at the First Unitarian church by Mrs. Maud Ulmer Jones and Miss Gertrude Sans Souci. Mrs. Jones has a soprano voice of rare sweetness and power. So great was the volume of her voice that her opening number, "Hear Ye, Israel" from Mendelssohn's Orations "Elijah," more than filled the auditorium. Every song was well received, for in Mrs. Jones her audience instantly recognized an artist. From the two bright little ballads by Miss Sans Souci to the last number of the program Mrs. Jones was enthusiastically encored. In fact, the audience was reluctant to leave after she had responded to an encore of the last number.—Helena, Montana, Daily Record.

Mrs. Jones will be heard in concert at the First Congregational church Tuesday evening, Nov. 22.

ANOTHER WORLD'S FAIR.

Chattanooga Plans Celebration of Close of Civil War.

Chattanooga, Tenn., Nov. 19.—During the day the first announcement was made of a formal movement to hold in this city in 1915 a world's fair to be known as the Semi-Centennial Peace Jubilee exposition commemorating the end of the war between the states. It is learned that assurances of aid from the government and various organizations has been secured.

Run Over and Killed.

CONTROVERSY OVER PINE LANDS

Lands Were Not Included in Either First or Second Selections of the Forestry Bureau

OBJECTIONS TO DESIGNATIONS

Held Out that Development of the Country North of Here Will Be Greatly Retarded.

An interesting controversy has arisen regarding large tracts of Minnesota pine lands which have been set aside by the engineer's department in charge of dams and reservoirs at the headwaters of the Mississippi. These lands were held out and not included in either the first or second selections of the bureau of forestry for a national reserve, for the reason that at certain seasons of the year there are overflows from the high water. The war department was given jurisdiction over several thousand acres around lakes and bodies of water connected by the reservoirs.

Strong objection to this designation have been made by G. G. Hartley, of Duluth, and other Northern Minnesota citizens. They claim that valuable lands are going to waste, if this policy is continued. It is set forth in a report that has been submitted to Senator Nelson that water can be so regulated that there would be no overflows. It is also set forth that the development and improvement of the country will be retarded, if these lands are held out from being opened to settlement, hence efforts will be made to change the boundary lines of the forest reserve so that the major part of the overflow withdrawal may be included in the forest reserve and an equal amount of land in the forest reserve proper be restored to the public domain subject to homestead entry.

As soon as congress opens it is understood that representatives of the several counties affected will go to Washington and lay the matter before the proper officials.

CARLTON APPEALS

In His Case Against the Great Northern for the Loss of a Leg at Romney

Last Year

The appeal of L. C. Carlton, brakeman Great Northern road, who brought action against the road in Ramsey county court to recover \$25,000, was heard in the supreme court today, says the St. Paul Daily News.

By a verdict rendered in the district court Carlton was awarded \$5,100 last March, but the company appealed to Judge Kelly for a verdict for the defendant on the ground that the verdict for Carlton was not supported by the evidence.

Carlton appealed to the supreme court.

CANVASS SHOWS SLIGHT INCREASE

J. H. Ley Has Completed Work of Compiling a New Brainerd City Directory

MANY HOUSES HAVE BEEN BUILT

Five Hundred Families Have Moved in, but Large Number Also Moved Away.

J. H. Ley, who has been at work canvassing the city and compiling the names for a new city directory, has completed the work and the copy is now all in for a new book for this city.

Mr. Ley got out a directory two years ago and it has been a valuable source of information to the people of the city. He has made a thorough canvass in getting the names for his new book and as a consequence is able to give some rather interesting information regarding the city.

He states that as far down as he has counted the names, which is to "W," there is a slight increase in population. One of the interesting facts brought out in the canvass was that during the past two years 500 families have moved into this city, while 450 families have moved away, which gives one an idea that there is quite a floating population. From information that Mr. Ley has been able to glean 100 new homes have been built in the city during the two years. He thinks there are about 75 houses in the city now empty.

The directory will be out in a short time and ready for distribution.

IS HALF A SOUTHERNER.

President Roosevelt Saddened by Attacks Upon Him.

Washington, Nov. 19.—Colonel John S. Mosby received a friendly letter from General Rouhae of Birmingham, Ala., commenting upon the attitude of the Southern people toward the president personally.

Colonel Mosby sent the letter to Oyster Bay, as he thought the sentiments expressed in it by a Confederate veteran would be gratifying to the president. He received a reply which he did not publish during the campaign as he felt that the president's motives in writing the letter would be misconstrued. President Roosevelt's letter is as follows:

"That is a fine letter of Rouhae's and I appreciate it. I have always been saddened rather than angered by the attacks upon me in the South. I am half a Southerner myself and I can say with all possible sincerity that the interests of the South are exactly as dear to me as the interests of the North."

The accused pleaded not guilty before Commissioner Gaines and were released on \$5,000 bail each pending hearing later. The shortage came to light several months ago and was made up by the other stockholders.

GAS TANKS EXPLODE

FOUR PERSONS KILLED AND A SCORE INJURED IN ACCIDENT AT CHICAGO.

MANY BUILDINGS DESTROYED

WINDOWS BROKEN FOR BLOCKS AND PEOPLE THROWN TO THE PAVEMENTS.

Chicago, Nov. 19.—Four persons were killed and a score of other persons were injured by a series of gas explosions that completely destroyed the plant of the Pyle Electric Headlight company in South Chicago during the day. The shocks of the explosions were so severe that all the buildings near the demolished plant were badly damaged and windows were shattered for blocks and persons walking in the streets were thrown from their feet at a greater distance. Overpressure on tanks containing gas is believed to have caused the accident.

The dead are: Ralph Wells, superintendent for the Pyle National Electric Headlight company; Amos Watkins, assistant superintendent for the same company; George Muehl, draftsman, employed by the People's Gas Light and Coke company; Thomas J. Jannings, employed by the Pyle National Electric Headlight company.

All of the dead were buried under tons of burning timber and hot brick and iron, making it impossible to remove their bodies for hours after the accident occurred. Firemen poured water on the portion of the building in which the dead were thought to be buried until the

Flames Were Subdued

sufficiently to permit of the four dead bodies being removed from the debris.

The scene of the explosion is the old Hyde Park gas plant, that passed into the hands of the People's Gas Light and Coke company several years ago with the consolidation of the gas interests in Chicago. Through lease the big plant is occupied partly by the Pyle National Electric Headlight company, which is largely engaged in supplying illumination for railroad coaches.

This illuminant is forced into small retorts which when attached under the floor of a car will supply it with light for months. In order to make this possible the retorts are subject to an extremely high pressure. It was such a tank that caused the first explosion. Without warning of any kind, it burst with a flash and a roar that shook the earth and seemed to lift the building from its foundation. Amid the hurricane of debris workmen were blown out of the structure far into the streets about the building. Before any one realized what had happened retort after retort exploded in such rapid succession that it was almost impossible to distinguish the detonations. There were nine such explosions in all, which left the plant in flames.

WIDELY KNOWN SOCIETY MAN.

Arthur Caton of Chicago Dies Suddenly in New York.

Chicago, Nov. 19.—A dispatch received from New York announces the sudden death in that city of Arthur Caton, a well known lawyer and clubman of this city.

Mr. Caton had gone to New York to meet his wife, who had just returned from abroad. During the morning he complained of severe abdominal pains which in a few hours compelled him to retire to his room in the Waldorf-Astoria. His illness increased and at 10 o'clock at night he died. The cause of death was said by the physicians to be peritonitis.

He was perhaps the most widely known society man in Chicago and it was largely to him that the entertainment of such celebrities as visited Chicago from time to time was left.

Mr. Caton had been actively interested in the raising of fine horses and possessed for many years one of the largest stock farms in the United States, where he bred some of the best trotting horses of their time on the American turf.

VERDICT AGAINST BREWERY.

Furnished the Beer Which Caused a Double Tragedy.

Atchison, Kan., Nov. 19.—Mrs. William D. Reneer obtained a verdict for \$5,000 damages against a brewing firm here during the day. Her husband shot and killed C. T. Cathout and James Burchett June 3, 1900, and is now serving a life term in the penitentiary. The shooting was the result of trouble while the men were drinking a keg of beer near the brewery. The plaintiff alleged that the beer came from the brewery and that it led to the tragedy which resulted in Mrs. Reneer's husband being sent to the penitentiary; that she was therefore deprived of his support and was entitled to damages.

IS HALF A SOUTHERNER.

President Roosevelt Saddened by Attacks Upon Him.

Washington, Nov. 19.—Colonel John S. Mosby received a friendly letter from General Roulac of Birmingham, Ala., commenting upon the attitude of the Southern people toward the president personally.

Colonel Mosby sent the letter to Oyster Bay, as he thought the sentiments expressed in it by a Confederate veteran would be gratifying to the president. He received a reply which he did not publish during the campaign as he felt that the president's motives in writing the letter would be misconstrued. President Roosevelt's letter is as follows:

"That is a fine letter of Roulac's and I appreciate it. I have always been saddened rather than angered by the attacks upon me in the South. I am half a Southerner myself and I can say with all possible sincerity that the interests of the South are exactly as dear to me as the interests of the North."

IS HALF A SOUTHERNER.

President Roosevelt Saddened by Attacks Upon Him.

Washington, Nov. 19.—Colonel John S. Mosby received a friendly letter from General Rouhae of Birmingham, Ala., commenting upon the attitude of the Southern people toward the president personally.

Colonel Mosby sent the letter to Oyster Bay, as he thought the sentiments expressed in it by a Confederate veteran would be gratifying to the president. He received a reply which he did not publish during the campaign as he felt that the president's motives in writing the letter would be misconstrued. President Roosevelt's letter is as follows:

"That is a fine letter of Rouhae's and I appreciate it. I have always been saddened rather than angered by the attacks upon me in the South. I am half a Southerner myself and I can say with all possible sincerity that the interests of the South are exactly as dear to me as the interests of the North."

The accused pleaded not guilty before Commissioner Gaines and were released on \$5,000 bail each pending hearing later. The shortage came to light several months ago and was made up by the other stockholders.

GAS TANKS EXPLODE

FOUR PERSONS KILLED AND A SCORE INJURED IN ACCIDENT AT CHICAGO.

MANY BUILDINGS DESTROYED

WINDOWS BROKEN FOR BLOCKS AND PEOPLE THROWN TO THE PAVEMENTS.

Chicago, Nov. 19.—Four persons were killed and a score of other persons were injured by a series of gas explosions that completely destroyed the plant of the Pyle Electric Headlight company in South Chicago during the day. The shocks of the explosions were so severe that all the buildings near the demolished plant were badly damaged and windows were shattered for blocks and persons walking in the streets were thrown from their feet at a greater distance. Overpressure on tanks containing gas is believed to have caused the accident.

The dead are: Ralph Wells, superintendent for the Pyle National Electric Headlight company; Amos Watkins, assistant superintendent for the same company; George Muehl, draftsman, employed by the People's Gas Light and Coke company; Thomas Jennings, employed by the Pyle National Electric Headlight company.

All of the dead were buried under tons of burning timber and hot brick and iron, making it impossible to remove their bodies for hours after the accident occurred. Firemen poured water on the portion of the building in which the dead were thought to be buried until late.

Flames Were Subdued

sufficiently to permit of the four dead bodies being removed from the debris. The scene of the explosion is the old Hyde Park gas plant, that passed into the hands of the People's Gas Light and Coke company several years ago with the consolidation of the gas interests in Chicago. Through lease the big plant is occupied partly by the Pyle National Electric Headlight company, which is largely engaged in supplying illumination for railroad coaches.

This illuminant is forced into small retorts which when attached under the floor of a car will supply it with light for months. In order to make this possible the retorts are subject to an extremely high pressure. It was such a tank that caused the first explosion. Without warning of any kind, it burst with a flash and a roar that shook the earth and seemed to lift the building from its foundation. Amid the hurricane of debris workmen were blown out of the structure far into the streets about the building. Before any one realized what had happened retort after retort exploded in such rapid succession that it was almost impossible to distinguish the detonations. There were nine such explosions in all, which left the plant in flames.

WIDELY KNOWN SOCIETY MAN.

Arthur Caton of Chicago Dies Suddenly in New York.

Chicago, Nov. 19.—A dispatch received from New York announces the sudden death in that city of Arthur Caton, a well known lawyer and clubman of this city.

Mr. Caton had gone to New York to meet his wife, who had just returned from abroad. During the morning he complained of severe abdominal pains which in a few hours compelled him to retire to his room in the Waldorf-Astoria. His illness increased and at 10 o'clock at night he died. The cause of death was said by the physicians to be peritonitis.

He was perhaps the most widely known society man in Chicago and it was largely to him that the entertainment of such celebrities as visited Chicago from time to time was left.

Mr. Caton had been actively interested in the raising of fine horses and possessed for many years one of the largest stock farms in the United States, where he bred some of the best trotting horses of their time on the American turf.

The second article provides the mode of procedure prior to appealing to the court and the third article provides that the agreement shall be concluded for a term of five years.

VERDICT AGAINST BREWERY.

Furnished the Beer Which Caused a Double Tragedy.

Atchison, Kan., Nov. 19.—Mrs. William D. Renger obtained a verdict for \$5,000 damages against a brewing firm here during the day. Her husband shot and killed C. T. Cathout and James Burchett June 3, 1900, and is now serving a life term in the penitentiary. The shooting was the result of trouble while the men were drinking a keg of beer near the brewery. The plaintiff alleged that the beer came from the brewery and that it led to the tragedy which resulted in Mrs. Renger's husband being sent to the penitentiary; that she was therefore deprived of his support and was entitled to damages.

FOR CONTEMPT OF COURT.

Judge Sends Minister to Jail for Thirty Days.

Worcester, Mass., Nov. 19.—Rev. P. S. Jushus, pastor of the First Baptist church, East Brookfield, was sent to jail for thirty days during the day for contempt of court by Judge Forbes of the probate court. The clergyman wrote a letter to the judge in connection with a suit now pending in which the First Baptist church is interested, accusing witnesses of perjury. The judge promptly decided that the writer had used "undue and improper influence with the court" and sentenced him to pay a fine of \$50 or go to jail. The clergyman said that he could not pay the fine and took the alternative.

Berlin, Wis., Nov. 18.—The Berlin National bank closed its doors at noon and posted a notice saying:

"Owing to the withdrawal of deposits the business of this bank has been placed in the hands of the controller of the currency."

A meeting of the stockholders had been called for Dec. 5 to arrange for paying a 60 per cent assessment in order to strengthen the bank and to remove any doubtful paper which might be found. Notices had been issued to the public stating the bank's determination to strengthen itself. These notices were misconstrued by the depositors; a run on the bank resulted, and became so serious that the directors determined to close the doors. The deposits aggregate \$180,000.
